

**PARAFERNALIA®**

# **PARAFERNALIA®**

## ***Originality Innovation and Made In Italy***

PARAFERNALIA® is the Italian brand that since 1968 reconciles creativity, style and functionality in the realization of writing tools such as stylus pens, ball, pencils and accessories.

A true meeting place for designers and architects with whom he initiates various collaborations that give place to unique objects.

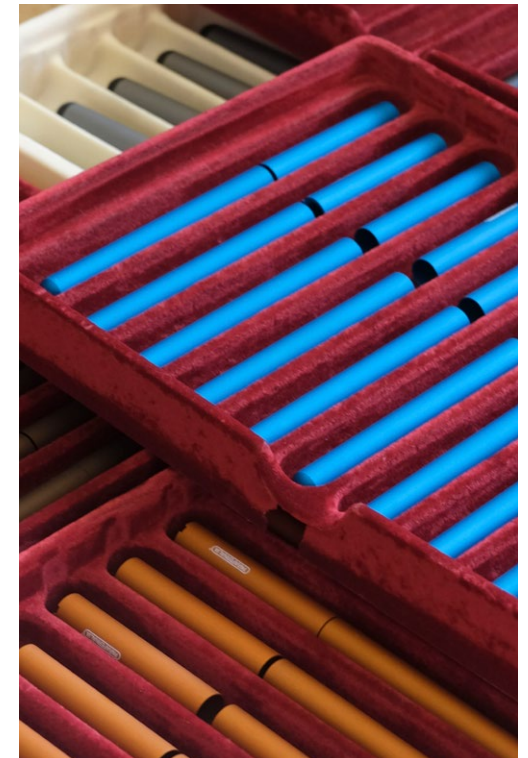

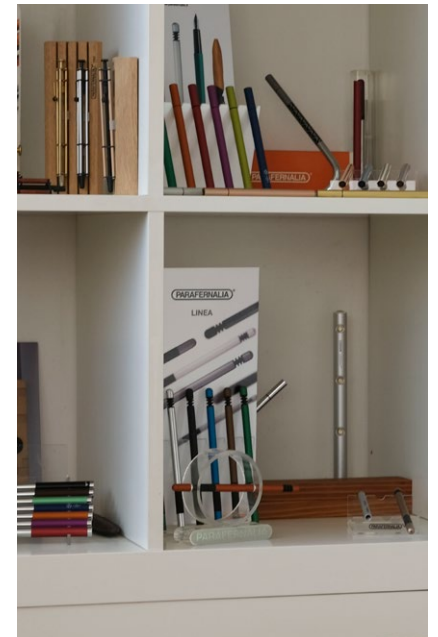

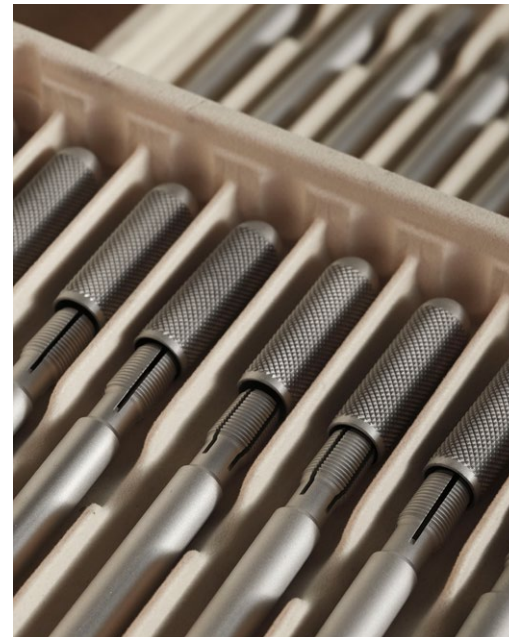

The iconic “Revolution” pen of 1978, designed by Sergio Carpani, an object that still today expresses freedom and creativity.

“Diamond”, a newly designed minesweeper, 2021 by the Milanese designer Giulio Iacchetti, a an exercise in style that aims at the essential through the special locking mechanism.

Parafernalìa keeps its past alive with objects and opens to the present with new collaborations, new markets and new projects.

**Customization** Digital UV Printing

# Diamante

Diamante is a mechanical pencil characterized by a simple and attractive design. An exercise in style that focuses on the essential through the special closing mechanism able to lock the mine with a simple rotation of the top. The texture, created by using a diamond tool, and the anodized aluminium finish give this writing accessory charm and brilliance. [Play Video](#)

# Kabrio

It's the attention to detail that makes the difference. In Kabrio, the difference lies in the clip, specially designed to prevent it from being placed in the open pocket and thus avoid unwanted ink stains. Made of aluminium and ABS, it is available in 10 colour variants. Innovative, practical and colourful.

**Dimensions (mm)** 115x12x12 | **Materials** Black ABS anodized aluminium with refill Roller Capless | **Designer** Paraferalia design | **Type** Roller Capless | **Refill** S8126 roller capless | **Box packaging** cardboard | **Customization** Print Pen UV Digital, Laser

# Linea

A real technical tool for creatives. Thanks to our know-how in combining the Italian style with the most advanced production technologies, Linea was born, 2 mm falling lead pencil, made of anodised aluminium and available in 4 colour variants, the perfect tool to make dreams come true. Specially designed for architects, designers and creators of emotions. It is no coincidence that Linea was used in the 1979 film Alien, directed by Ridley Scott.
